

Dear FCC:

Please do not allow the NAB and on-air broadcasters to influence you to block Satellite Radio (XM &/or Sirius) from providing up-to-date traffic and weather to its paid subscribers. I am very happy with frequent and timely XM radio traffic and weather and want it to continue; after all, I'm voluntarily paying for it. Retain our consumer choice; stand up for freedom!

Thank you,

CDr William Sanders, USN (Ret.)
